

Levels of the Astral

Each level is a dimension on the astral plane. Each of the 7 levels has 7 levels within it.

LEVEL 7 - The Creator - This is the top dimension where the Creator exists. You often hear the term, "Seventh Heaven". This is what it is referring to.

LEVEL 6 - Archangels. This is where the Archangels reside, with Metatron and Michael sitting to the right and left of the Creator, respectively. They decide the assignments for all the other Archangels.

LEVEL 5 - The Directors of the Councils reside on this level as well as the Ascended Masters.

LEVEL 4 - This is the level where the various Councils reside as well as Angels and Guardians.

LEVEL 3 - This is where your Higher Self exists. This is the highest level contactable directly by humans. When we access the Archangels, it is through the Higher Self. Most humans do not have a high enough vibration that allows us to communicate directly at a higher level.

LEVEL 2 - This is where Spirit Guides exist and where they are trained to work with humans as guides.

LEVEL 1 - This is where people go immediately upon death and where lost souls reside.
