

# Clearing Entities

Sometimes people have entities that are attached to them and it can cause enormous distress to a person especially by causing addictive behavior. The entity wants to consume the substance through the person and this attachment creates a state of fear within that person. The entity actually feeds off of fear. To clear an entity from a person, you can call upon Archangel Michael and you are working with your Higher Self and I AM presence.

- Align with your Higher Self and call in Archangel Michael.
- Ask Archangel Michael to take any entities or any dark or lower attachments into the column of white light that you have built at the end of the massage table. Ask Archangel Michael to take the entity to the level in the astral plane that is the most appropriate for it at this time while channeling white light at the person. Speak in a commanding voice either out loud or silently, that this entity be cleared. Command that the entity never return again across all directions of time and space and throughout all dimensions.
- You also ask that any non-beneficial programs, and the structures and constructs that are holding those programs in place, be cleared.
- You also need to clear the energetic pathway that the entities came in through. Please clear any portals, doorways, gateways or wormholes that the entities came from, back to their source and close that opening, across all directions of time and space and throughout all dimensions. You may need to repeat these commands 3 times.
- Continue to channel the light until the entity has been cleared. This may take time. Usually the person will notice a lightness or shift take place and you can check in with them that to see when this has taken place.

- Be sure to bring up the column of white light and then seal the portal where it was when you complete your session.
- Be sure to thank the beings of light at the end of the session!
- It's also a good idea to smudge the room after an entity clearing to clear any residual energies.
