

# Working with the Beings of Light

We have a team of Beings of Light that will work with us as healing practitioners. These beings, who are not embodied, can only do the work when we ask them. Often they will tell us what needs to be done so we become aware of the issue, then we ask or command them to do the work and then they take action in the higher realms carry out the tasks at hand. This is the way it works. It's a symbiotic relationship. We need them and they need us.

When we speak, we are making commands. The correct wording is important as we do this.

You first need to establish your relationship with your team and the beings of light. You have to move beyond any doubt and trust yourself and your team to carry out the clearing and healing. All of this takes time, so be patient with yourself as you learn.

This is fairly advanced work, so it takes a while to get to this level with your teams for this work to be done effectively. I'm including it in the course so you can begin to know what may need to be cleared and begin to work with it.

Archangel Michael works specifically to clear entities and lower energies from a person's energy field. You can invoke him into the session to do a host of clearing work, including the cord cutting and clearing.

## Soul Retrieval

The Divine Healers and Archangel Raphael can assist with retrieving lost aspects of the soul or a person's energy that have been fragmented off in this lifetime or other lifetimes. You would ask your team to please retrieve

any and all soul aspects that have been fragmented in this lifetime and all other lifetimes, retrieve them and clear them, balance and heal them and then return them to their oversoul to be integrated.

### Clearing Commands

Please clear any non-beneficial energies and any energies belonging to others out of the person's chakras and energy fields. I will say this as I work on each chakra, it is more effective if you say this as you work with each individual chakra instead of just saying all the chakras.

Here is a list of some of the things we can ask to be cleared:

Entities, dark lords, A.I. energies, E.T. energies and implants, parasites, demonic, satanic and luciferin energies, all negative or non-beneficial programming, and the constructs and structures that are holding them in place.

Then we ask that it be cleared from all levels and layers, all dimensions and timelines from their energy field and take it into the white light to the level of the astral that is most appropriate for it at this time, never to return again, across all directions of time and space.

You can also command them to remove portals, doorways, gateways, wormholes, pathways and noxious streams of energy. You can ask that these be removed, closed and sealed forever and never to be opened again at their source.

With each clearing command you can say, "And hold it or them accountable to God the Father and the Divine Mother and to the highest courts, councils and Directors." ~ ref. Nicole LaFeber

There is so much more on the astral plane and all sorts of things need clearing so listen closely to your guidance.

People have devised many tools to work with clearing negative energies, which are quite effective at keeping the dark and lower energies at bay, including EMF's. I have noticed a lot more dark energies need to be cleared in the past few years as the polarities of light and dark increase. Tools are there to help us with this work. I will be announcing tools on my website [www.energyhealingteacher.com](http://www.energyhealingteacher.com), so stay tuned.
